

# VERA Z. DWYER SCHOOL OF HEALTH SCIENCES

## Course Multiple Use Policy AC-01-B

### About This Policy:

**Effective Date:**

10-11-2019

**Date of Last Review/Update:**

10-11-2019; 12-19-2024; 3/28/2025

**Responsible School Administrator/Committee:**

*Dwyer School of Health Sciences Faculty (DSHSF) President*

**Scope:**

*This policy is for the IUSB Vera Z. Dwyer School of Health Sciences.*

**Policy Statement:**

The purpose of this policy is to clarify how courses are used to meet multiple University and School requirements.

**Policy:**

The use of courses to satisfy more than one requirement in the student's degree program is subject to University General Education and School policies on the multiple use of a course.

In the Vera Z. Dwyer School of Health Sciences, select courses are approved to meet three requirements. For example:

- a. A course may count toward a general education requirement, a major, or concentration, or minor requirement up to three of these categories.
- b. A course may count toward a major/concentration and a minor requirement.

No course can be used to count for more than three requirements (General Education, major/concentration, and minor).

When a specific course satisfies three requirements, the credits for the course are counted only once in the total number of credits presented for graduation. 120 earned credits are required for a bachelor's degree according to the Indiana Commission on Higher Education.

**History:**

\*It is our understanding in the Dwyer School of Health Sciences that no official policy for course counting for multiple requirements in majors/concentrations, minors, and General Education exists at the campus level.

3/28/25 Faculty vote to approve non-substantive changes to policy to reflect renaming of the Dwyer School from Dwyer College. Policy number updated to reflect changes.
