## **CPR Policy** **SLP-AS-10-A**

Faculty approval: 5/31/2023

Effective Date: 8/15/2023

### **Policy Statement:**

The purpose of this policy is to outline the MS-SLP guidelines for professional-level CPR requirements.

### **Policy:**

All students must have CPR certification through the American Heart Association before they will be allowed to participate in clinical/service-learning experiences.

Re-certification is required prior to expiration. The American Heart Association certification is valid for a two-year period. However, failure to re-certify prior to the expiration requires that the student complete the entire certification course. A re-certification course will only be accepted if completed prior to the expiration date.

The cost is the student's responsibility.

### **Procedure:**

Students are responsible for timely completion of the CPR course and will upload a copy of their certificate to the compliance tracking system.
